About Us...

Centerport residents for over 20 years, Regina is an organic grower, Paul is a brewer, and our love of cooking and creating flavorful things led us to open our little bistro-brewery in 2019.

We sometimes incorporate our beers into our food recipes, and we often use things that Regina (or farmers she knows) has grown. We keep it as local and organic as possible, while cooking with the seasons. The meat we use is sustainably raised on small farms and ranches without the use of growth hormones or antibiotics.

Blind Bat Brewery is a small brewery launched in 2008, distributing over the years to beer stores, bars, restaurants, and farmers' markets across Long Island, New York City, and into the Hudson Valley.

About Our Beers

Our brewery was launched in 2008.
We brew our beers in Centerport Long Island with as much New York State ingredients as we can, usually at least 90%, but often 100%.
